EDUCATION

- M.Sc. in Financial Engineering

École polytechnique fédérale de Lausanne (EPFL)

2024 – present
- B.Sc. in Mathematics | *Thesis : Rates of convergence for projection estimators & B-splines*

Supervised by Prof. **Victor M. Panaretos** at École polytechnique fédérale de Lausanne (EPFL)

2021 – 2024

RESEARCH EXPERIENCE

- Research Assistant | EPFL

Contributed to a research project at the intersection of deep learning and finance. Implemented a custom Transformer-based architecture for tabular data, integrated the model into an existing ML pipeline with cross-validation and rolling-window evaluation.

Supervised by Prof. **Semyon Malamud** & PhD candidate **Johannes Schwab**

Summer 2025

TEACHING EXPERIENCE

- Teaching Assistant | EPFL

- Analyse I, Analyse A and Analyse B (Prof. **Sacha Friedli**)
 - Analyse Avancée I (Prof. **François Genoud**)
 - Analyse B (Prof. **Ana Khukhro**)

As a Teaching Assistant, I support students during tutorials, guiding them through the learning process to help ensure their academic success. I also assist with grading assignments and providing feedback, as well as answering questions on the course forum to address any doubts or challenges students may have.

2023 – present

PROJECTS

- Stock Return Forecasting with Multi-Modal Deep Learning - EPFL

Developed a deep learning model to predict quarterly stock returns by combining structured financial data with sentiment analysis of earnings call transcripts.

- Preprocessed Compustat, CRSP, and earnings call data, aligned datasets temporally and reduced feature dimensionality via PCA.
 - Engineered sentiment features using FinBERT and discretized scores to capture tone shifts.
 - Built and trained LSTM-based models in PyTorch; compared baseline (structured data only) with augmented (text + data) models.
 - Demonstrated improved prediction accuracy (lower MSE, RMSE) when integrating textual sentiment.

SKILLS

- Programming:

Python, PyTorch, R Studio, $\LaTeX$
- Languages:

English (full professional proficiency), Spanish, French, Catalan (native)

HOBBIES

- Sports:

Fitness (3 years), Football (7 years), Karate (7 years), Handball (2 years)
- Music:

Piano (3 years)
